

## PRINCIPAL'S MESSAGE

‘With just a little education and practice on how to manage their emotions, every SAIONEER can move into a new familiarity of life, so gratifying that he/she will be enthused to keep on managing their expressive nature in order to keep it going.

‘Dear students, now that you are at home just remember the school building is closed but the school is open. The online classes are going on fine and you all are participating with great enthusiasm and why not because we need to complete the course.

Dear Saioneers, do keep in mind that ‘Education is a buddy which no future or present challenges can despirit, no crime can destroy, no enemy can push it away and no nepotism can enslave it & the essence of intelligence, in reading & writing is a skill in extracting meaning from everyday experience. These months promise to be months of sincere efforts, both by the students & their parents, as well as their teachers with regard to the online exams and assignments.

Do take care of your health and your elders at home. Eat good food and do not come out of your houses then only you can keep yourself away from the corona virus.

Mr. N K Panigrahi  
Senior Principal
